

# WHAT IS MY VANPOOL MONTHLY COST?

Your monthly cost is determined by the total miles that your commuter van travels each month and the number of paying passengers in your vanpool group. Through an agreement with the Miami-Dade and Broward County Metropolitan Planning Organization (MPO)

and the Florida Department of Transportation, vanpools which originate or terminate in either of these two counties are eligible to receive a \$400-per-month subsidy to reduce the monthly cost of vanpooling.

To qualify for the MPO subsidy, the vanpool must originate or terminate in Broward, Dade or Palm Beach County.
